Come on, matesy; make your way to the nearest outlet now!

A new Soy Sauce is in town!

Look out for a new range of soya sauce and condiments on your supermarket shelves. Produced by **Chuen Cheong Food Industries (M) Sdn Bhd**, the **Tiger** brand of sauces has been launched in the Malaysian market, solely distributed by **Greenlove Distribution**.

The sauces, which are made from traditional family recipes, are produced under strict manufacturing processes. The award winning brand, which is a household name in Singapore and other countries in the region, uses only high grade Canadian soybeans to produce sauces that are rich in flavour and taste.

The range of **Tiger** brand products are available from hypermarkets and supermarkets, including Giant, Tesco, Carrefour, Jusco as well as Chinese medical halls and mini marts.

Good, nice smelling doggie!

In the olden days, linen bags filled with lavender flowers were placed under pillows to gently send restless sleepers to dreamland. Incorporating this is **Lavender Lab**, a soft toy dog that is lavender scented and very cuddly! So this makes it a great sleeping companion for hyperactive or excited children who cannot quiet down for the night. **Lavender Lab** is also said to increase the amount of time spent in deep sleep, so you and your kids will wake up more refreshed, alert and energetic.

As the aromatherapy packets are nestled inside the plush head and back sections of **Lavender Lab**, gently squeezing these areas will release the soothing scent. The aroma will last for up to five years. For stronger or additional lavender scent, simply give **Lavender Lab** another hug and squeeze. The **Lavender Lab** is available from **Spiele & Schenken** for RM79.90. For more info, visit www.spiele-schenken.com or call 03-8070 8813.

It's Armywear to the rescue!

For Malaysia where dengue fever and malaria are still quite widespread, **Armywear** may be the best solution. Its range of products is made of anti-mosquito fabric that is 100% natural and contains active insect-repelling ingredients. **Armywear** is totally safe and is suitable for everyone, particularly children and those with sensitive skin.

Rigorously tested by the London School of Hygiene & Tropical Medicine, **Armywear** was tested against common natural and chemical ingredients used to tackle insect problems and it came up tops. It also has been clinically proven to be effective in protecting against more than 3000 types of biting insects.

Armywear works by continually releasing a fresh smelling natural vapour. This is activated by rubbing or scrunching and will remain active for at least three hours, creating a protective "no-bite-zone" around you. With this new product, you can do away with conventional insect repellent remedies. No more spraying and applying lotions all the time!

There is a wide variety of **Armywear** products for the whole family with the retail price ranging from RM75 to RM210, including the sarongs, kaftans and **Armybear**, a soft mascot toy. With **Nature's Defence** as the authorised distributor in Malaysia, it is currently available at **Bebehaus** and **Safe n' Sound (One Utama)**, **MedSense** and **Sim Pharmacy (Subang Jaya)** and **Greek's Connection Marketing Company (Kuching, Sarawak)**. For more info on **Armywear**, call 017-339 9990 (Terence Goh), visit www.armywear.co.uk or www.naturesdefence.com.my
