Mosquito repellent beachwear from Boots

If you're bugged by the bugs when you go on holiday then this may provide the answer, Boots are now offering a range of sarongs and bandanas impregnated with a highly effective mosquito repellent and these are fast becoming the latest 'must-have' holiday accessories.

Tried and tested

The Arnywear™ mosquito repellent fabric technology has been tested by [The London School of Hygiene & Tropical Medicine](#), and they know a thing or two! Simply rubbing or scrunching the fabric up will activate the 'Vapour release system' and provide protection from mosquitoes, midges, horse flies, ticks and other biting insects.

The Arnywear™ mosquito repelling agent used in this clothing is eco friendly and made from natural materials that are not harmful to you or the environment. They promise no skin irritations and a pleasant air.

The range

The range includes insect repellent teen and adult sarongs, mini sarongs and matching bandanas, choice of holiday colours and designs. Sarongs are so versatile – wrap them round you on the beach, an evening wrap when the bugs are busiest. Use as a throw for the bed or sun-lounger; or even use as a table cloth for a bug free picnic.

And don't just save them on your beach holiday, take them anywhere the insects may bite – they'll be great on water sports holidays or on walking trips in Scotland to help protect you from the infamous Scottish midge. The sarong will have many uses on camping trips and if you are cycle touring they'll not only help protect you from the evening insects, it makes an excellent, easy to pack, lightweight skirt.

FACT FILE

This range of Arnywear™ [mosquito repellent sarongs and bandanas](#) can only be purchased online (they are not available in Boots stores).

For [alternative insect and mosquito protection](#) Boots also have a range of more traditional sprays, liquids, lotions, wipes, roll-ons, creams and plug-ins; including Boots own brand as well as Jungle Formula™, Mosi-Guard™ and other well known makes.

If you'd like to bug proof some clothing yourself try the [Nomad Medical Bug Proof Clothing Treatment](#) (available from Gear-Zone), this is based on Permethrin, is colourless and odourless when dry, and will give protection for two weeks. GearZone also have an impressive range of [mosquito protection](#), from repellents and bite treatments to mosquito nets and electric mosquito killers.
